

## **Guitar ensemble**

The guitar ensemble was initiated by Michael Tröster in 1988. The ensemble consists without any exception of motivated students, that have “Classical Guitar” as their main subject. Each one has not only gathered concert experiences as a member of the ensemble, but also as a soloist and was praised by the press for his or hers interpretation, expressive power and virtuosity. During its 16 years of existence, the guitar ensemble gave concerts in Germany and also in foreign countries. The program is rich in variety and comprises musical works from the period of Baroque up to compositions of modern times, thereby emphasizing the music of the folkloristic modern age.
