

Library

At the moment the library of the academy is restructured to a music department of the city library. This action especially contains a broad change to a computer cataloguing.

As a city music library it should from then on be available for teachers and students as well as for the citizens of Kassel. Thereby, the library presents itself as a reference library on the one hand and a lending library on the other hand.

The emphasis of the purchases of the library is on musicological, musical-pedagogical and instrumental-pedagogical book publications as well as on the field of music printing. Moreover, the library possesses an extensive collection of sound carriers.

Users of the library can use the internet and places for listening.
